EDUCATION

The University of British Columbia, Kelowna, BC, Canada **2017-Present**
Current third year undergraduate student. Major in Computer Science, minor in Mathematics

WORK EXPERIENCES

- **2016 Summer:** Shanghai Liyang Software
First time working for a tech company.
- **2019 Summer:** Chongqing University HVAC department
Participated the research project that trying to find the building design that can minimize the energy consumption and cost with constrained indoor thermal comfort trade-off. Developed an optimization program for the project.
- **2019 Summer:** Chongqing University HVAC department
Participated the “Yangzi River area air conditioning and heating solution and its corresponding systems” in the HVAC department (in civil engineering) of Chongqing University. Designed and implemented the project’s web platform.

PROJECTS

- Chongqing University’s HVAC platform** github.com/ailrk/135Server
A flask backend for the Chongqing University 135 HVAC project. It collect and manage temperature and humidity data from different sources the Chongqing University worked with from 2019.
- Chongqing University’s HVAC frontend** github.com/ailrk/135client-react
A react and typescript based frontend for the aforementioned project.
- A static blog markdown manager** github.com/ailrk/markdowndb.macro
Blog building tool. Managing markdown files at compile time and providing easy to use runtime interface.
- A toy compiler made with haskell** github.com/ailrk/naplang
A compiler for a toy imperative language, it compiles to llvm-ir with haskell llvm binding.
- C implementation of NSGA2 algorithm** github.com/ailrk/nsga2c
A C implementation of NSGA2 genetic algorithm.

SKILLS

- **Programming Language:** Familiar with Python, TypeScript, Haskell, Rust, C, C++, Racket.
- **CPython: 4 years of experience:** Familiar with flask web framework and sqlalchemy database ORM. Understand underlying Cpython data structures’ implementation in C. Familiar with python concurrency model.
- **Typescript: 2 years of experience:** Understand the structural typing system, familiar with V8 optimization proces, understand nodejs event loop system and it’s corresponding reactor pattern.
- **Web developement** Familiar with **Flask, React, Vuejs, Nodejs, and Sqlite.**
- **Compiler:** Familiar with parsing techniques and compiler optimization process. Worked with some llvm and babel AST code transformation.
- **Math:** linear programming, dynamic system, number theory, abstract algebra
- **Language:** Have been living in **English** Speaking country for more than 3 years, received band 7 for IELTS in 2017. Native **Chinese** speaker. Learning **Japanese.**

COMMUNITY EXPERIENCES

2019 Summer: Joined UBC programming competition.
